Dear Mark:

Congratulations! Madura Studios is one of the top 5 DataCAD Value Added Resellers for 1991. As you know, there's more to being a successful reseller than just taking the check from the customer. It requires sales skill and product knowledge, customer service, training, and a commitment to marketing your solutions. You and your AEC staff should be very proud of your accomplishments this year, especially in light of the current recession in the design and building industries.

We appreciate your commitment to DataCAD, and look forward to working together for a prosperous 1992!

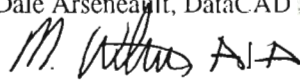

Again, congratulations.

Sincerely,

  
Livingston Davies, President
