

# ***We're Up For Some Friendly Competition***

**It's a dog-eat-dog world out there, so it helps when you have a competitive advantage like DataCAD. Since 1984, we've been helping architects stay ahead of the pack with a simple "Heads-Up" interface, along with built-in tools for production drawing, three-dimensional modeling, and rendering, which lets them and their clients visualize and react quickly. DataCAD lets them work more cost-effectively and produce killer designs with extra bite.**

**DATA CAD LLC is proud to sponsor the DataCAD Team in the 1996 Designers 3D CAD Shoot-Out. Thanks, Curtis, Jonathan, and Rick, for trusting your instincts to DataCAD. Good Luck!**

## ***Meet The Team...***

***Curtis B. Wayne, RA, NCARB Team Leader***

*Graduate, Harvard Graduate School of Design, Cooper Union  
President, Wayne Architects, PC – Commercial Design Specialists and developer of the Client Collaborative Design Process™*

***Jonathan S. Foster, AIA Team Member***

*Graduate, Harvard Graduate School of Design  
Head, Foster-Wayne Virtual Architecture Studio, a joint venture dedicated to developing DataCAD as a tool for real-time client collaboration*

***Richard C. Morse II, BA Team Member***

*Graduate, Roger Williams University  
Director, Madura Studios Inc., Computer Aided Design and Drawing  
Consultants to architects, engineers and contractors*

**DataCAD®**  
Software for Architecture
