

DataCAD 8 Menus Displaying Hieroglyphics

1. Choose Start/Find/Files or Folders and on the Named: line type in **dcadwin.ini**
2. Choose Find Now.
3. When Windows finds the file in your windows directory, double click on it.
4. The file will open in Notepad.
5. In the first paragraph, General there is a line which reads CHAR_SET=0
6. Change the 0 to the number 1. (Valid numbers are 0-15)
7. Save the file and now re-start DataCAD 8.

Note: Each Windows installation seems to install a different set of System Fonts and Character Sets. We have configured DataCAD 8 to work with the most common setting, 0.
