A Comprehensive Library of DataCAD Instruction. Three Hours In All for Only $39.95!

The *DataCAD Easy Learning Tapes* Include Everything You Need for Personalized Assistance Any Time You Want It.

To use your *DataCAD Easy Learning Tapes* any time you like, all you need is DataCAD, the Easy Learning Tapes program, and an inexpensive cassette player. The rest comes to you inside the box. This innovative program gives you:

Six comprehensive lessons on audiocassette tapes. The tapes are broken into 30-minute modules and cover almost everything you need to know about using DataCAD... from learning the basics to developing customized designs.

Special *DataCAD Easy Learning Tapes* Guide to Getting Started. A reference guide that lets you know, at a glance, what subjects are covered on each of the audiocassette tapes. The Guide to Getting Started is a quick summary of the lessons you will learn.

A 45-day money-back guarantee. If you're not completely satisfied with the *DataCAD Easy Learning Tapes*, simply return the program within 45 days for a full refund of the product price.

Here's What People Are Saying About the DataCAD Easy Learning Tapes...

"Before using the *DataCAD Easy Learning Tapes*, I'd never done any kind of design work at all. But in just a couple of hours, I was able to design an entire floor plan for my condo.

They're much easier to use than a reference manual. You get going fast and start producing real drawings in a fraction of the time."

Nancy Daly
Administrative Assistant

"The *Easy Learning Tapes* are a sure way to DataCAD success. You'll learn insider "tricks" not found anywhere else, that you can put to work right away. You'll soon be light years ahead of anyone who hasn't used this tape library."

Lew Robins
DataCAD Easy Learning Tapes Creator

About The Author

Lew Robins has over 35 years of experience training people in complicated tasks involving keyboards. After graduating from Columbia College, he became a U.S. Navy Petty Officer and made his mark in training recruits as Morse Code operators and typists. Lew's Morse Code course was adopted by the Coast Guard and Army Signal Corps, where training time was reduced by 50% and his career was launched!

Lew has been a consultant to a wide range of computer companies, including IBM, NCR, Unisys, and more. He has also developed courses for Fortune 500 corporations like R.J. Reynolds, General Binding Corporation, Union Carbide, and others.

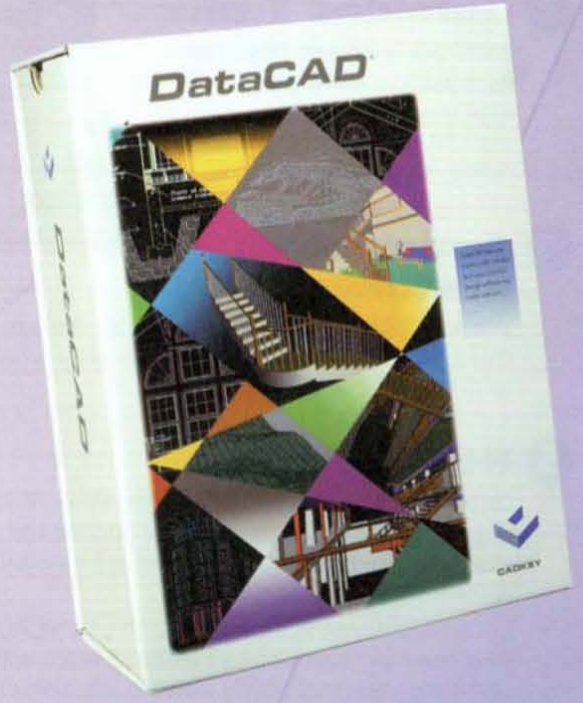
Master DataCAD® In Just a Few Hours With the DataCAD Easy Learning Tapes!



The DataCAD Easy Learning Tapes Are Based on Five Proven Learning Principles:

1 Constant Interaction

You interact with the program on average seven times per minute throughout the entire course and learn by doing. You're always involved!

2 Immediate Positive Reinforcement

You get instant positive feedback every time you do something right.

3 Unfolded Tasks

Each task is broken down into its individual steps and explained in order. You understand everything you're doing, step by step.

4 Anticipating Mistakes

We anticipate which mistakes you're likely to make. When you do, we tell you exactly what to do to get out of them.

5 Repetition

Critical material is repeated several times, each time from a different angle. You understand every feature thoroughly because information is constantly reinforced.

Because of these five principles, the *DataCAD Easy Learning* Tapes are a breeze to work with, and keep you on a steady upward learning curve. You never hit frustrating learning plateaus.

Plus...

The *DataCAD Easy Learning Tapes* come with a total guarantee of satisfaction and service. You may try your *DataCAD Easy Learning Tapes* risk-free for 45 days. If you're dissatisfied for any reason, or you feel the course doesn't do what you want, simply return it for a full refund of the product price.
